

MISSION DARKNESS

 **FARADAY BAGS** 

COMBATTING DIGITAL THREATS

THE WORLD'S MOST ADVANCED WIRELESS DEVICE SHIELDING

MISSION DARKNESS IS BROUGHT TO YOU BY MOS EQUIPMENT. MISSION DARKNESS OFFERS A COMPREHENSIVE SELECTION OF RADIO FREQUENCY SHIELDING SOLUTIONS PRIMARILY FOR LAW ENFORCEMENT AND MILITARY FORENSIC INVESTIGATORS, EXECUTIVE TRAVEL PROTECTION, AND ANTI-HACKING/ANTI-TRACKING PROTECTION. MISSION DARKNESS PRODUCTS ARE DESIGNED TO KEEP WIRELESS DEVICES OFFLINE, AND COME IN SPECIFIC DIMENSIONS AND STYLES TO SHIELD DEVICES RANGING IN SIZE FROM KEYFOBS TO GENERATORS.

FARADAY BAGS AND RF ENCLOSURES

Typically used to block remote wiping or alteration of wireless devices recovered in criminal investigations, Mission Darkness faraday bags are also used by security-conscious individuals to protect against data theft and enhance digital privacy. When a device is placed inside of a bag or forensic enclosure, keyfob signals cannot be boosted, malicious apps can't be remotely triggered or wiped, unintentional communication is blocked, and the microphone, camera, and GPS location are unable to transmit.

HOW DOES IT WORK?

Designed and tested by professionals in the lab and field, Mission Darkness faraday bags are made using the highest quality materials along with innovative and patent-pending manufacturing techniques. All Mission Darkness faraday bags include at least two layers of high-shielding fabric on all sides with dual paired seam construction to block Wi-Fi, Bluetooth, cell signals, GPS, RFID, and radio signals with 60dB-80dB average attenuation. Select products are designed and tested to MIL STD 188-125 certification, including TitanRF™ Faraday Fabric, which is incorporated in all of our bags.

MADE IN USA

Over 90% of our products are made in the USA. A few of our components are made abroad, primarily due to lack of availability in the USA. We are a proud supporter of American manufacturing and will continue to sacrifice profit to bolster local jobs.

HOW TO TEST

Faraday bags and RF enclosures should be tested regularly to ensure proper shielding. Mission Darkness offers a free, simple-to-use app that measures the signal blocking strength of any faraday bag or RF enclosure using the Wi-Fi and cell antennas on your own device.

Look for **FARADAY TEST** on iOS or **MD FARADAY BAG TESTER** on Android.

Law Enforcement and Military Forensic Investigations

- Helps maintain the integrity of digital forensic evidence during search and seizure transport by protecting data from wipe commands and other deletion tactics used by criminals
- Analysis enclosures allow personnel to operate touch screens in order to conduct cell phone and tablet triage, analysis, and data extraction while keeping devices shielded

Government and Executive Travel Protection

- Shields phones, tablets, laptops, passports, and IDs from hacking and tracking while traveling
- Provides an easily-deployable security solution
- Thwarts hacking attempts on valuable/confidential information

Secure Facilities Device Management and Compliance

- Protects information in secure facilities
- May allow owners to keep devices on their person when in high-level security environments that discourage the use of electronic devices
- Disables remote access of microphone, camera, and GPS tracking to preserve privacy

Federal and Military Clandestine Operations

- Prevents the risk of tracking military personnel or seized items during operations
- Mitigates electromagnetic interference of radio and other devices
- Protects identity of personnel by blocking unwanted applications from accessing data

Anti-Hacking, Anti-Tracking, and Anti-Spying Assurance

- Defends against malicious vehicle access via relay hacking and signal boosting
- Shields cell phones, tablets, GPS units, electronic toll transponders, and similar devices from all wireless signals

Electromagnetic Pulse, Coronal Mass Ejection, and Solar Flare Protection

- Preserves the working integrity of electronic devices in the event of EMP or CME
- Select products certified to MIL STD 188-125, including TitanRF™ Faraday Fabric, which is incorporated into all of our bags

ORDERING INFORMATION

LEAD TIME

IN-STOCK ITEMS ARE TYPICALLY SHIPPED WITHIN TWO BUSINESS DAYS. PLEASE INQUIRE FOR OUT-OF-STOCK LEAD TIMES.

SHIPPING

DOMESTIC AND INTERNATIONAL SHIPPING PRIMARILY THROUGH UPS, USPS, OR CUSTOMER ACCOUNT. ITEMS SHIP FROM SANTA BARBARA, CA 93101.

DUTY & TAXES

ALL DUTY AND TAXES ARE THE RESPONSIBILITY OF THE CUSTOMER.

CONTRACTING

MISSION DARKNESS

SUPPORTING CUSTOMERS WORLDWIDE

CUSTOM LABELING

for BULK ORDERS

We offer quality custom labeling to help personalize your new faraday bags. Our design team will work with you to customize your label and materials from start to finish.

BENEFITS OF CUSTOM LABELS

- Communicate and advertise brand image
- Apply specific usage instructions to eliminate training needs
- Add department or agency information for asset tracking
- Promote special events

COMMON LABELING OPTIONS

- Adhesive labels in plastic pockets
- Woven labels sewn onto exterior fabric
- Screenprinting applied to exterior materials
- Printed cards and booklets
- Vinyl heat transfers

The labeling process can take place during or after production to assist with tighter deadlines.

Minimum order quantity and labeling style will vary based on product and deadline. Please contact us to discuss options.

MISSION DARKNESS

BALLISTIC

NYLON

FARADAY BAGS

MISSION DARKNESS

Mission Darkness Ballistic Nylon Faraday Bags form the core of the product line. Choose between sizes for nearly any device, window (to view the device and confirm signal cutoff) and non-window, and other features built for customer applications ranging from forensics to car security. Multiple layers of shielding fabric, dual paired seams construction, and wear-resistant outer materials provide an average of 70dB+ shielding and long product life.

Mission Darkness
Faraday Bags made by

MSRP

\$23

Dimensions: Internal 5.25" x 9.5"

Phone Size, Non-window

MDFB-S-NW

Mission Darkness Small Non-window Faraday Bag for Cell Phones. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, branding pocket, serialized. Large enough for nearly any phone and even some small tablets.

MSRP

\$52

Dimensions: Internal 5.25" x 8.5"

Phone Size, Window

MDFB-S-W

Mission Darkness Small Window Faraday Bag for Cell Phones. Multiple layers of high-shielding fabric, dual paired seams, viewing window with transparent faraday, protective outer shell, branding pocket, serialized.

MSRP

\$55

Dimensions: Internal 12" x 8.5"

Tablet Size, Non-window

MDFB-M-NW

Mission Darkness Medium Non-window Faraday Bag for Tablets. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, branding pocket, serialized.

MSRP

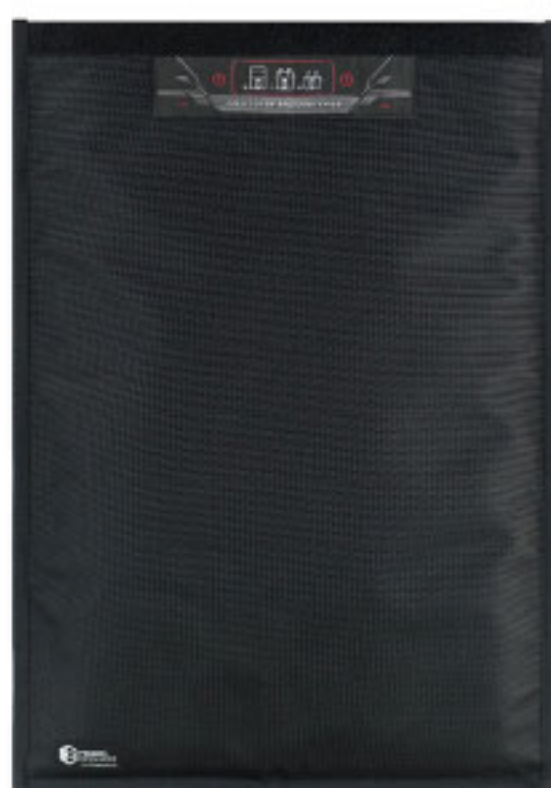

\$75

Dimensions: Internal 12" x 8.5"

Tablet Size, Window

MDFB-M-W

Mission Darkness Medium Window Faraday Bag for Tablets. Multiple layers of high-shielding fabric, dual paired seams, viewing window with transparent faraday, protective outer shell, branding pocket, serialized.

MSRP

\$90

Dimensions: Internal 18" x 14.5"

Laptop Size, Non-window

MDFB-L-NW

Mission Darkness Large Non-window Faraday Bag for Laptops. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, branding pocket, serialized.

MSRP

\$130

Dimensions: Internal 18" x 14.5"

Laptop Size, Window

MDFB-L-W

Mission Darkness Large Window Faraday Bag for Laptops. Multiple layers of high-shielding fabric, dual paired seams, viewing window with transparent faraday, protective outer shell, branding pocket, serialized.

Mission Darkness
Faraday Bags made by

MSRP
\$50

Dimensions: Internal faraday sleeve 7"L x 4.5"W x 0.5"H
External 8.75"L x 6"W x 1"H

Mojave Series, Phone Bag / MDFB-S-MS

Mission Darkness Mojave Faraday Phone Bag. Padded travel bag with multiple layers of high-shielding fabric in faraday sleeve compartment, plus accessory pockets in varying dimensions and snap hook for keys.

MSRP
\$90

Dimensions: Internal faraday sleeve 10.5"L x 7.5"W x 0.75"H
External 12.5"L x 9.25"W x 1.5"H

Mojave Series, Tablet Bag / MDFB-M-MS

Mission Darkness Mojave Faraday Tablet Bag. Padded travel bag with multiple layers of high-shielding fabric in faraday sleeve compartment, plus accessory pockets in varying dimensions.

MSRP
\$245

Dimensions: Internal ~ 26"L x 13"W x 13"H

X2 Duffel Bag / MDFB-D-A

Mission Darkness X2 Faraday Duffel Bag. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, branding pocket, accessory compartment, removable shoulder strap, MOLLE webbing, serialized. Includes removable shielded pouch with MOLLE webbing and straps.

MSRP
\$80

Dimensions: External 8"L x 6"W x 2"H

MOLLE Pouch / MDFB-A-DFF

Mission Darkness MOLLE Faraday Pouch. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, serialized, MOLLE webbing and straps for attaching to any MOLLE-enabled bag. Same pouch as included on the X2 Duffel.

MSRP
\$190

Dimensions: Internal w/o padding 16"L x 6"W x 7.5"H
Internal w/ padding 15.5"L x 5.5"W x 7"H

Padded Utility Bag / MDFB-PUB

Mission Darkness Padded Utility Faraday Bag. Designed to shield and protect fragile devices (cell phones, night vision, rifle scopes) during transport. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, padded handle, MOLLE webbing, 2 accessory compartments, serialized, removable extra-padded liner with dividers.

MSRP
\$10

Dimensions: Internal 5.5" x 3.5"

Keyfob Size / MDFB-K

Mission Darkness Faraday Bag for Keyfobs. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, serialized, belt loop, keyring loop. Designed for security of vehicles with smart keyfobs.

T10 Tower Bag

MDFB-T10

Mission Darkness T10 Faraday Bag for Computer Towers. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, heavy-duty reinforced handles and webbing, branding pocket, serialized, folds flat. Large enough for complete desktop setups and accompanying accessories.

MSRP

\$460

Dimensions: Internal 30"L x 24"W x 22"H
Folds down to 30"L x 24"W x 4"H for storage

Revelation EMP Shield

MDFB-RES

Mission Darkness Revelation EMP Shield for Generators and Larger Items. Removable aluminum plate on the bottom holds heavy items 70lbs+. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, heavy-duty reinforced handles and webbing, accessory compartment, front clear pocket. Typically used for EMP protection, forensics, and data security.

MSRP

\$380

Dimensions: Internal 43"L x 7"W x 30"H

Eclipse Solar Panel Bag

MDFB-SOL

Mission Darkness Eclipse Faraday Bag for Solar Panels. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, heavy-duty reinforced handles and webbing, accessory compartment, front clear pocket. Typically used for portable solar panel protection against EMPs.

DRY SHIELD

FARADAY BAGS

MISSION DARKNESS

DRYBAG

MISSION DARKNESS

Mission Darkness Dry Shield Faraday Bags are weatherproof and waterproof bags for shielding electronic devices from RF signals during travel, in rain or snow, sand, dirt, and near water or contaminants. Offering the highest-grade signal protection for law enforcement, executives, military, covert ops, EMP protection, and security-conscious individuals.

Dry Shield Phone Sleeve

MDFB-DSPS

Mission Darkness Dry Shield Faraday Phone Sleeve. Waterproof, weatherproof, signalproof. Multiple layers of high-shielding fabric, dual paired seams, durable 600D TPU/420D TPU outer shell, magnetic closure. Holds cell phones and small devices.

MSRP

\$70

Dimensions: Internal 12" x 9"

Dry Shield Tablet Sleeve

MDFB-DSTS

Mission Darkness Dry Shield Faraday Tablet Shield. Waterproof, weatherproof, signalproof. Multiple layers of high-shielding fabric, dual paired seams, durable 600D TPU/420D TPU outer shell, magnetic closure. Holds tablets, multiple cell phones, and similar devices.

MSRP

\$85

Dimensions: Internal 8"L x 6.5"W x 2"H

Dry Shield MOLLE Pouch (Gen 2)

MDFB-DSMP

Mission Darkness Dry Shield MOLLE Faraday Pouch. Waterproof, weatherproof, signalproof. 100% waterproof zipper and 840D TPU outer shell, multiple layers of high-shielding fabric, dual paired seams, MOLLE webbing, MOLLE straps. Holds cell phones, radios, and similar devices.

MSRP

\$90

Dimensions: Internal 17"L x 9"W round Folds down to 14.5"L x 3.5"W
External fully expanded 21.5"L x 9"W round

Dry Shield Tote 15L

MDFB-DS15L

Mission Darkness Dry Shield Faraday Tote 15 Liter Capacity. Waterproof, weatherproof, signalproof. Multiple layers of high-shielding fabric, dual paired seams, 500D PVC outer shell, front clear pocket, removable shoulder strap. Holds laptops, tablets, and similar devices.

MSRP

\$297

Dimensions: Internal 18"L x 17"W x ~12"H
External fully expanded 28"L x 17"W x ~12"H

Dry Shield Backpack 40L

MDFB-DS40L

Mission Darkness Dry Shield Faraday Backpack 40 Liter Capacity. Waterproof, weatherproof, signalproof. Multiple layers of high-shielding fabric, dual paired seams, 500D PVC outer shell, MOLLE webbing on three sides, 5 external pockets included, heavy-duty reinforced adjustable shoulder, chest, and waist straps. Holds multiple laptops and other devices.

MSRP

\$980

Dimensions: Internal 5'L x 30"W x 36"H OR 5'L x 36"W x 30"H
Folds down to 30"L x 32"W x 3.5"H

Dry Shield Rapture Bag 1,060L

MDFB-DSRAP

Mission Darkness Dry Shield Rapture Faraday Bag 1,060 Liter Capacity for Generators and Extra-large Items. Waterproof, weatherproof, signalproof. Multiple layers of high-shielding fabric, dual paired seams, 100% waterproof zipper, 500D PVC outer shell, heavy-duty reinforced straps and handles, air release valve, removable base mat. Designed for protecting generators, survival electronics, and bulky items from disasters such as EMPs and floods.

FORENSIC ANALYSIS

ENCLOSURES

Mission Darkness Forensic Analysis Enclosures offer the ultimate in radio frequency shielding and hands-on accessibility for electronic device forensics investigations. For hands-on analysis choose between soft-sided, portable enclosures or rigid lab enclosures, with various filter options for data transfer and power. Other enclosures include battery kits to keep devices live and shielded during transport, as well as non-hands-on charging and data extraction bags. With innovative designs and shielding features, MD forensics enclosures offer performance that no other RF shielding products can achieve.

FIELD

Anyone handling digital evidence in the field should protect devices from remote wiping and alteration to maintain chain of custody.

Patrol Officers

If budgets allow, every officer should carry protection for digital evidence.

PATROL OFFICER

Product	Price	Staff	Total cost
---------	-------	-------	------------

Minimum kit	Phone Shield	\$23/ea	200	\$4,600
Cheapest option for wider distribution, but cannot protect larger devices				

Recommended kit	Phone Shield + Laptop Shield	\$23/ea \$90/ea	200	\$22,600
Best option for protecting phones, tablets & laptops!				

DETECTIVES & CRIME UNITS (NARCOTICS, HOMICIDE)

Product	Price	Staff	Total cost
---------	-------	-------	------------

Minimum kit	- Charges phones & tablets - Includes cable kit	\$425/ea	20	\$8,500
Charge & Shield Kit (Tablet Size)				
Recommended kit	+ Protects laptops	\$425/ea \$90/ea	20	\$10,300
Charge & Shield Kit (Tablet) Laptop Shield				
BEST KIT	+ protects multiple devices	\$425/ea \$90/ea \$245/ea	20	\$15,200
Charge & Shield Kit (Tablet) Laptop Shield X2 Duffel				

FRONT OFFICE

Separates the field and the lab so officers can bring digital evidence day or night. Devices are stored in charging & shielding lockers until the investigator is ready for analysis.

Transfer Box

Transfer evidence in velcro faraday bags to Charge & Shield bags to keep them charging in the Blocker Locker.

Blocker Locker

Multple compartments to keep devices live, protected and locked. Digital forensics examiner holds the admin key and removes bags when ready for examination.

DIGITAL FORENSICS LAB

The digital forensics investigator's time is always limited. Separating "front office" responsibilities from the investigator, as well as the right shielding & charging equipment, provides more time for critical work.

BlockBox Lab
Forensic tools require interaction with a device, for example to install bootloaders for password cracking. After this initial phase, devices can be placed in shielding bags to free up the box.

Charge & Shield Bags
Keep devices charged while waiting to be used in a faraday box or while breaking passcodes.
SKU: MDBL-CS-M
\$425/ea x 5 = \$2,125

Already have a Faraday Tent?

If you already have a faraday tent, devices should be protected while the door is open, as well as for redundancy. If the tent fails, all devices can receive signal at once.

Mission Darkness
Faraday Bags made by

All soft-sided forensic analysis enclosures are built with a patent-pending NeoLok magnetic closure, designed for transferring devices from the collection site to the lab. The bag's magnetic closure easily opens inside of a forensic box without the worry of damaging conductive gloves, opposed to Velcro closure bags which can cause abrasion.

MSRP

\$48

Dimensions: Internal 9" x 6.5"

Phone Size, NeoLok Non-window / **MDFB-S-NW-M**

Mission Darkness NeoLok Non-window Faraday Bag for Cell Phones. Magnetic closure with quick snap strap is safer for conductive gloves/used for forensics. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, branding pocket, serialized.

MSRP

\$65

Dimensions: Internal 9" x 6.5"

Phone Size, NeoLok Window / **MDFB-S-W-M**

Mission Darkness NeoLok Window Faraday Bag for Cell Phones. Magnetic closure with quick snap strap is safer for conductive gloves/used for forensics. Multiple layers of high-shielding fabric, dual paired seams, viewing window with transparent faraday, protective outer shell, branding pocket, serialized.

MSRP

\$65

Dimensions: Internal 12" x 8.5"

Tablet Size, NeoLok Non-window / **MDFB-M-NW-M**

Mission Darkness Medium NeoLok Non-window Faraday Bag for Tablets. Magnetic closure with quick snap strap is safer for conductive gloves/used for forensics. Multiple layers of high-shielding fabric, dual paired seams, protective outer shell, branding pocket, serialized.

MSRP

\$90

Dimensions: Internal 12" x 8.5"

Tablet Size, NeoLok Window / **MDFB-M-W-M**

Mission Darkness NeoLok Window Faraday Bag for Tablets. Magnetic closure with quick snap strap is safer for conductive gloves/used for forensics. Multiple layers of high-shielding fabric, dual paired seams, viewing window with transparent faraday, protective outer shell, branding pocket, serialized.

MSRP

\$130

Dimensions: Internal 9.5" x 6"

Phone Size, NeoLok Bag with 10,000mAh Battery Kit / **MDFB-S-CK-1**

Mission Darkness Small NeoLok Faraday Bag with Battery Kit. NeoLok magnetic closure for forensics, multiple layers of high-shielding fabric, dual paired seams, protective outer shell, branding pocket, serialized, small shielded window to view indicator light of battery, and zipper compartment to hold battery and cables. Kit includes 10,000mAh battery, cable kit (lightning, USB micro, USB-C, USB extension), and usage instructions.

MSRP

\$150

Dimensions: Internal 9.5" x 6"

Phone Size, NeoLok Bag with 20,000mAh Battery Kit / **MDFB-S-CK-2**

Mission Darkness Small NeoLok Faraday Bag with Battery Kit. NeoLok magnetic closure for forensics, multiple layers of high-shielding fabric, dual paired seams, protective outer shell, branding pocket, serialized, small shielded window to view indicator light of battery, and zipper compartment to hold battery and cables. Kit includes 20,000mAh battery, cable kit (lightning, USB micro, USB-C, USB extension), and usage instructions.

BLOCKER LOCKER

MDBL-7

The Blocker Locker™ 7 system solves multiple problems for forensics investigators and labs. To effectively access and recover data from cell phones and tablets, the latest forensic tools require devices to stay live. It can be difficult to keep devices shielded from signals, charged at all times, and securely locked. The Blocker Locker™ 7 accomplishes all of these objectives in a single cabinet designed specifically for shielding, charging, and locking. The unit includes 7 fully loaded compartments, while additional Charge & Shield bags can be purchased as required. To extract data from a device in the Blocker Locker™, simply remove the Charge & Shield bag, unplug power and bring it into a forensic faraday box. The bag can be easily opened in the box (the magnetic NeoLok™ closure reduces faraday glove abrasion) while the device is passed into the shielded enclosure. Shielding and power are never compromised, providing a seamless process for investigators.

○ **Phone Size: \$390/ea** **MDBL-CS-S**

○ **Tablet Size: \$425/ea** **MDBL-CS-M**

- Up to two Charge & Shield bags can fit in one compartment.
- Purchase additional bags to support more than 7 devices in the Blocker Locker 7. Offered in phone or tablet size.

Each Bag Includes

- Faraday bag with window, USB filter, and pocket on back to hold cables
- Phone charging cables - lightning, micro USB, USB-C, USB extension
- USB A to A cable

FARADAY SUPPLIES

MISSION DARKNESS

Mission Darkness supplies include a variety of TitanRF materials for making custom RF shielding projects. High shielding fabric, tapes, and patches can be combined to cover electronics emitting EMI/EMR, to make personal data security products such as wallets, or to line walls of homes or offices. Please contact us for bulk material orders.

Product Name	Standard	Pro Construction Kit	Pro Construction Kit XL20	Pro Construction Kit XL50	Panel
SKU	MDFF-TRF	MDFF-TRF-PRO	MDFF-TRF-PRO20	MDFF-TRF-PRO50	MDFF-TRF-PANEL
MSRP	\$23	\$130	\$420	\$980	\$350
Dimensions	36"L x 44"W (11 sq. ft.)	12'L x 44"W (66 sq. ft.)	60'L x 44"W (220 sq. ft.)	150'L x 44"W (550 sq. ft.)	10'8"L x 9'W (96 sq. ft.)
Also Includes	1" x 3' strip of TitanRF Tape	1" x 20' TitanRF Tape	1" x 20' TitanRF Tape, 1-pk small TitanRF Patch, nitrile gloves	1" x 20' TitanRF Tape, 1-pk small TitanRF Patch, 1-pk medium TitanRF Patch, nitrile gloves	-

TitanRF™ Faraday Fabric

Mission Darkness TitanRF Faraday Fabric is a nickel and copper composition material used by military, law enforcement agencies, and corporations to block cell, WiFi, Bluetooth and GPS signals. It has been lab tested and certified to shielding effectiveness standards MIL-STD-188-125 and IEEE 299-2006. It can be cut and sewn like standard fabric for RF shielding rooms and tents, EMP protection, EMI/EMF radiation reduction, anti-theft, identity protection, signal isolation in secure facilities, data protection during travel, and more. The fabric is available in multiple lengths with additional items included based on the kit.

SKU	MDFT-10F-1I	MDFT-10F-2.5I	MDFT-10F-10I	MDFT-50M-1I	MDFT-50M-2I	MDFT-50M-2.5I	MDFT-50M-10I
MSRP	\$10	\$20	\$45	\$96	\$170	\$200	\$520
Dimensions	10'L x 1"W	10'L x 2.5"W	10'L x 10"W	164'L x 1"W	164'L x 2"W	164'L x 2.5"W	164'L x 10"W

TitanRF™ Faraday Tape

Mission Darkness TitanRF Faraday Tape is a high-shielding conductive adhesive tape, primarily used to connect two sheets of TitanRF Faraday Fabric, seal RF shielding enclosures, or repair a punctured faraday bag/cage. It has been lab tested and certified to shielding effectiveness standards IEEE 299-2006. The tape is available in multiple widths and lengths. *The ONLY tape compatible with the Mission Darkness Taperator is the 164' length x 2" width roll (MDFT-50M-2I); this product has a protective cardboard rim with printed instructions.

SKU	MDFP-S	MDFP-M	MDFP-L
Size	Small	Medium	Large
MSRP	\$7	\$7	\$10
Dimensions	3.5" x 3.5" (Pack of 4)	6" x 5" (Pack of 2)	12" x 10" (Pack of 2)

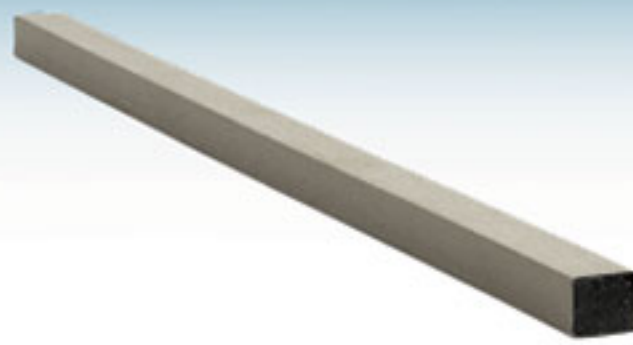

TitanRF™ Faraday Patch

Mission Darkness TitanRF Faraday Patch is a high-shielding conductive adhesive rectangular sheet, available in small, medium, and large sizes. The flexible patch is primarily used to cover surfaces to make them conductive, mend a punctured faraday bag, connect two sheets of TitanRF Faraday Fabric, seal RF shielding cages, create a faraday enclosure, or as a pocket sticker to deflect cell phone radiation. It has been lab tested and certified to shielding effectiveness standards IEEE 299-2006.

Mission Darkness
Faraday Bags made by

MSRP
\$8

Dimensions: External 20"L x 0.4"W x 0.47"H

TitanRF™ Faraday Foam Gasket - Short Length / MDFF-TRF-FG-20I

Mission Darkness TitanRF Faraday Foam Gasket is a 20"L x 0.4"W x 0.47"H foam strip covered in high-shielding conductive fabric with adhesive backing on the bottom. The flexible RF shielding foam is primarily used for gasketing, cushioning, and sealing faraday enclosures, forensic box lids, and joints.

MSRP
\$25

Dimensions: External 90"L x 0.75"W x 0.25"H

TitanRF™ Faraday Foam Gasket - Long Length / MDFF-TRF-FG-90I

Mission Darkness TitanRF Faraday Foam Gasket is a 90"L x 0.75"W x 0.25"H foam strip covered in high-shielding conductive fabric with adhesive backing on the bottom. The flexible RF shielding foam is primarily used for gasketing, cushioning, and sealing faraday enclosures, forensic box lids, and joints.

MSRP
\$100

Dimensions: Standard size (large size available upon request)

TitanRF™ Faraday Glove Set / MDFF-GLOVES

Mission Darkness TitanRF Glove Set is made out of TitanRF Flex Faraday fabric, a flexible high-shielding conductive material that has been lab tested and certified to shielding effectiveness standards IEEE 299-2006. The set includes two double-layer gloves—universal size for left and right hands. Used for applications such as forensic box glove replacement and shielded device-screen touch/operation.

MSRP
\$40

Compatibility: *Only use with TitanRF Faraday Tape - 2"W x 164'L rolls

Taperator / MDFF-TAPERATOR

Mission Darkness Taperator provides fast, easy, one-handed tape application for constructing RF shielding enclosures/projects and joining fabric sheets. The Taperator is intended for use with the TitanRF Faraday Tape (2" width x 164' length rolls). Taperator firmly applies tape to flat seams, and has a retractable creasing wheel for taping inside corners. Multiple tape kit options available.

MSRP
\$120

Dimensions: External 46" x 32"

ATC Transponder Faraday Shield / MDFF-ATC-SHIELD

Mission Darkness ATC Transponder Faraday Shield is used for maximizing the attenuation level in order to prevent unwanted aircraft transponder transmissions or interference. Built with three layers of TitanRF Faraday Fabric, plus a 4-inch border of TitanRF Faraday Tape, so it can be adhered directly to the aircraft. Sized specifically to cover antenna couplers.

MSRP
\$550

Dimensions: External rim frame 12" x 6"

Shielded Honeycomb Air Vent / MDFF-AIR-VENT

Mission Darkness Shielded Honeycomb Air Vent is used to obtain effective electromagnetic shielding while allowing excellent airflow, for ventilation and heating in screened rooms, EMI/RF shielded rooms, electrical control panels, faraday cages, or any type of shielded enclosure. Fabricated from high-performance and corrosion resistant steel material, and has been lab tested and certified to shielding effectiveness standards IEEE 299-2006.

Exodus EMP Faraday Car Cover

MDFB-CAR

Mission Darkness Exodus EMP Faraday Car Cover is an extremely large faraday enclosure designed for shielding vehicles from HEMP/EMP or related occurrences. Constructed with multiple layers of TitanRF Faraday Fabric with no exposed stitching (no holes) and 100% continuous planes. Custom made to fit each vehicle's unique exterior and wheel width dimensions. Can also be used for shielding extra-large electronics such as satellites, commercial generators on trailers, and survival equipment.

HEALTH & APPAREL

Mission Darkness™ offers a growing line of radiation shielding apparel and home interior products that act as a barrier between your body and harmful electromagnetic frequencies (EMF) and radio frequencies (RF) inside your home, office, and public places, such as those coming from cell phones, laptops, Wi-Fi routers, smart meters, 5G cell towers, and additional sources.

Mission Darkness
Faraday Bags made by

MSRP
\$250

Dimensions: External 63"L x 42"W - 2 panels per set

TitanRF™ Radiation Shielding Blackout Curtains - Short Panel / Beige, Gray, White

Mission Darkness TitanRF Radiation Shielding Blackout Curtains combines quality materials and innovative RF shielding technology. The main function of the curtains is to act as a barrier between the inside of your house and harmful EMF coming from cell phone towers, smart meters, and other outside sources. Two panels per set; available in beige, gray, or white.

MSRP
\$300

Dimensions: External 84"L x 52"W - 2 panels per set

TitanRF™ Radiation Shielding Blackout Curtains - Long Panel / Beige, Gray, White

Mission Darkness TitanRF Radiation Shielding Blackout Curtains combines quality materials and innovative RF shielding technology. The main function of the curtains is to act as a barrier between the inside of your house and harmful EMF coming from cell phone towers, smart meters, and other outside sources. Two panels per set; available in beige, gray, or white.

MSRP
\$80

Dimensions: Fits heads from 20.5" to 23.25" circumference

EMF Blackout Hat / MD-EMF-HAT

Mission Darkness EMF Blackout Hat is a comfortable shielded baseball style cap lined with TitanRF Flex Faraday Fabric. Provides a barrier between your head and harmful EMF coming from cell phone towers, smart meters, and other outside sources. Adjustable snapback closure fits heads from 20.5" to 23.25" interior circumference.

MSRP
\$80

Dimensions: Fits heads up to 22.5" circumference

EMF Blackout Beanie / MD-EMF-BEANIE

Mission Darkness EMF Blackout Beanie is a comfortable shielded skullcap/beanie lined with TitanRF Flex Faraday Fabric. Provides a barrier between your head and harmful EMF coming from cell phone towers, smart meters, and other outside sources. Stretches to fit heads up to 22.5" interior circumference.

MSRP
\$150

Dimensions: Exterior 60" x 50"

TitanRF™ Radiation Shielding Throw Blanket / MD-BLANKET-GRAY

Mission Darkness TitanRF Radiation Shielding Throw Blanket combines quality materials and innovative RF shielding technology. The main function of the blanket is to act as a barrier between your body and harmful EMF inside your home, such as those coming from cell phones, laptops, WiFi routers, smart meters, and 5G cell towers. The reversible gray and white design consists of ultra-soft 100% polyester exterior layers with EMF radiation protection hidden inside.

MSRP
\$80

Dimensions: Exterior 40" x 30"

TitanRF™ Radiation Shielding Baby Blanket - Blue or Pink / MD-BLANKET-BABY

Mission Darkness TitanRF Radiation Shielding Baby Blanket combines quality materials and innovative RF shielding technology. The main function of the blanket is to act as a barrier between your child's body and harmful EMF inside your home, such as those coming from cell phones, laptops, WiFi routers, smart meters, and 5G cell towers. Made with ultra-soft 100% polyester minky dot exterior fabric plus EMF radiation protection hidden inside. Available in blue or pink.

\$60

Dimensions:  Internal 10"L x 2"W x 5"H

FreeRoam Belt Bag

MDFB-BELT

Mission Darkness FreeRoam Faraday Belt Bag is a stylish waist pack perfect for travel and everyday wear. Constructed with a protective water-resistant exterior, two layers of TitanRF Faraday Fabric lining the interior, plus two unshielded front zipper compartments. Large enough to hold multiple cell phones and accessories.

MSRP
\$195

Dimensions:  Internal 10.5"L x 4"W x 16"H

FreeRoam Backpack

MDFB-FR-BP

Mission Darkness FreeRoam Faraday Backpack protects laptops and mobile devices during travel and everyday commuting. Constructed with two layers of TitanRF Faraday Fabric lining the interior, water-resistant 600D PVC exterior, plus an unshielded front zipper pocket. The back side includes breathable back padding and adjustable straps with supportive nylon webbing. Padded laptop compartment fits up to 17 inch laptops.

AUTO INDUSTRY

FARADAY BAGS

MISSION DARKNESS

The Mission Darkness Blokstart Keyfob Shield is a durable faraday enclosure for preventing vehicle engines from starting during auto service. Smart keyfobs allow a vehicle to start without a physical key in the ignition, which may destroy the engine or harm the mechanic during service. When the keyfob is placed inside of the Blokstart Keyfob Shield, all signal is instantly blocked, preventing the ignition from communicating with the keyfob. Maintain customer, vehicle, and mechanic safety with this simple and effective solution.

PROTECTED

ANYWHERE YOU GO

WE BELIEVE THAT EVERY HUMAN HAS THE RIGHT TO SAFETY, SECURITY, AND PRIVACY. AS WE INTRODUCE NEW DEVICES INTO OUR LIVES THAT SEE US, LISTEN TO OUR CONVERSATIONS, AND TRACK OUR WHEREABOUTS, THESE FUNDAMENTAL RIGHTS BECOME NEARLY IMPOSSIBLE TO ACHIEVE AT THE SACRIFICE OF CONVENIENCE.

OUR MISSION IS TO GIVE THE CONTROL BACK TO YOU. STAY PRIVATE AT HOME, STOP CELL PHONE HACKERS WHILE IN PUBLIC, PREVENT YOUR CAR FROM BEING STOLEN, PROTECT YOUR ELECTRONICS FROM AN EMP, BLOCK A CRIMINAL FROM REMOTE WIPING, SAFEGUARD SENSITIVE DATA ON YOUR LAPTOP...

**THE CHOICE IS
ONCE AGAIN YOURS**
