YOUR ENCRYPTED QR SYSTEM

# HOUDINISMART<sup>®</sup>

- ✓ Type your secret text
- ✓ Type your secret password
- ✓ Create your encrypted SMART QR code

- ✓ Make a picture of this SMART QR and send this picture by any communication system of your choice to the receiver.
- ✓ The receiver takes his HOUDINI device and scans the SMART QR code. Then, type in the secret password and read the hidden message.

# HOUDINI<sup>PRO</sup>

- ✓ Type your secret text
- ✓ **Select the contact for who the secret message is**
- ✓ Create your encrypted PRO QR code

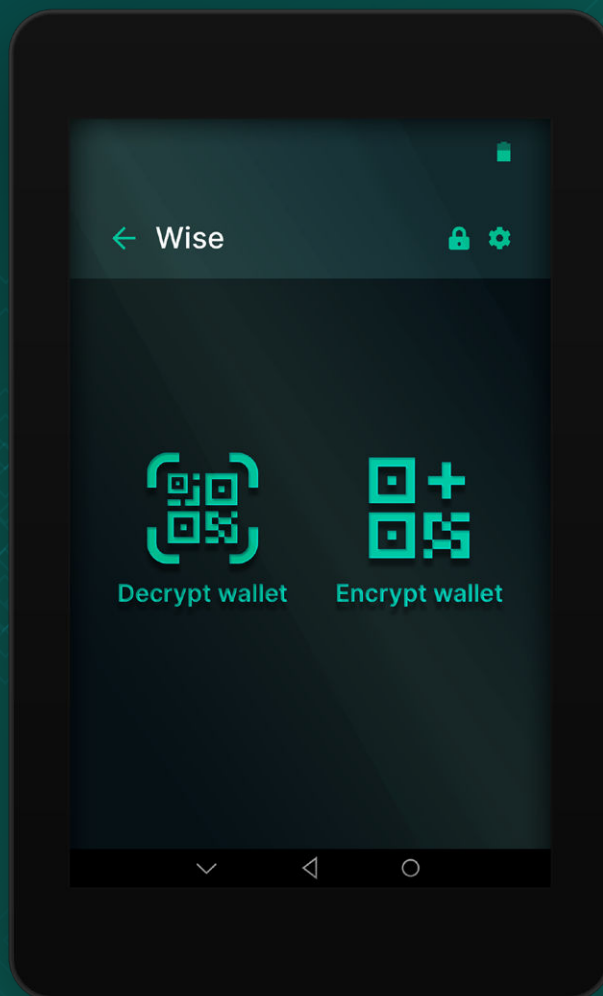

- ✓ Make a picture of this PRO QR code and send this picture by any communication system of your choice to receiver.
- ✓ The receiver takes his HOUDINI device and scans the PRO QR code. **Then, type in your private password to decrypt the code and read the text.**

# HOUDINIWISE<sup>®</sup>

- ✔ Scan your original wallet QR code and enter a password. HOUDINI then creates another QR code. Make a picture of this remade QR code and share it with any communication app of your choice.
- ✔ The receiver scans the remade wallet QR code and inserts the password chosen by the sender and obtains the original wallet QR code.
